# Technology Usage Agreements (From Jeffco Connect)

Jeffco is committed to transforming student learning through expanded and flexible learning opportunities that prepare students to thrive in a digitally connected world. Your school may be providing and assigning a 1:1 device to your Student for the Student's exclusive, educational use. This policy applies to students receiving 1:1 devices through the District's 1:1 program or from individual schools that have not yet been integrated into the District program. Please check with your school to see if this policy applies to your family.

Devices must be used in accordance with this agreement, District Policy, and applicable laws at all times. Failure to comply with this agreement while in possession of a 1:1 device may result in disciplinary action and the forfeiture of the students right to take the device home.

This agreement outlines the expectations for students and families as part of Jeffco Schools 1:1 Device program. Expectations are divided into three categories with 'General' covering expectations for families and students, 'Student' covering expectations that families must ensure students understand and follow, and 'Family' covering expectations for the students' families to understand and follow.

GENERAL

- All devices remain the property of Jeffco Public Schools.
- All devices will include mandatory software that provides web-filtering on any internet connection. Disabling or attempting to remove this software is prohibited.
- Students have no expectation of privacy. The District may monitor any information stored or transmitted with the device.
- The student or their family/guardian will be responsible for the repair costs associated with all accidental or deliberate damage.
- The student or their family/guardian will be responsible for the replacement cost of lost/stolen device and accessories.
- Loaner devices may be provided during repair or replacement of a primary device. This agreement also applies to loaner devices.
- Students must notify a school teacher or administrator as soon as possible if device is lost, stolen, or damaged. A police report may be required in the case of theft, vandalism, and other criminal acts.
- The device must be returned to the school in working condition prior to leaving Jeffco Public Schools.

Technology Usage Agreements (From Jeffco Connect) *page 2*

STUDENT

- The student will take care of the device at all times.
- The student will be the sole user of the device.
- The student will always demonstrate digital citizenship and use the device for learning and growth in compliance with district policy JS Technology Usage Agreements.
- The student will bring the device to school everyday unless otherwise instructed.
- The student will come to school with the device fully charged everyday.
- The student will keep the device in the protective case.
- The student will keep track of the device at all times.
- The student will not remove District labels from the device.
- The student will notify a teacher immediately about any device damage, loss, or theft.
- The student will not replace or modify the manufacturers operating system.
- The student will not attempt to remove, modify or circumvent the device management software.
- The student understands that the device is subject to inspection at any time without notice.

FAMILY

- I will support my student in the care and use of the assigned device.
- I will report any concerns to my child's school teacher or administration.
- I understand that the student and guardian are responsible for all costs associated with the repair or replacement of student assigned devices that are a result of loss, theft or accidental/deliberate damage.

I have read, understand, and agree to the terms of this agreement. My student has also read, understands, and agrees to the terms of this agreement. I authorize my student to receive a 1:1 device provided by Jefferson County School District. More information can be found on the District 1:1 Website at bit.ly/jps1-1.
